HUGHES' 30,000 MILE CAMPAIGN COMES TO END

Trip Down Hudson Today; at
Madison Square Tonight.

Is Long Distance Champion in
Presidential Campaigning.

SPOKE IN THIRTY-TWO STATES

From Bangor, Me., to Pacific
Coast on Special Train.

Governor Winds Up in Good
Voice and Physically Fit.

Hudson, N. Y., Nov. 3.—By the time Charles E. Hughes reaches New York City tonight, his tour for votes completed, he will have traveled close to 30,000 miles. Members of the Hughes party estimate he has been seen by nearly one-third of the voters of the United States in the most comprehensive, nerve-racking oral marathon for votes any presidential candidate has ever undergone. Save for about twelve days, the Republican nominee has been continually traveling and stumping since August 5.

He has made speeches in thirty-two of the forty-eight states and passed thru two or three more without talking. He has been as far north as Bangor, Maine; as far south as Nashville, Tenn.; as far west as the Pacific coast. For the most part he has traveled on the first campaign special de luxe ever introduced in American politics. He finished his campaign tour in perfect physical trim.

Voice Overcomes Strain.

"Governor Hughes is splendidly fit," said his physician, Dr. Callison today. "There is not even any seriousness to the condition of his larynx from the tremendous strain he has put on his voice. No man, unless he is absolutely fit, could have stood the strain to which the Republican nominee has been subjected and have finished in the perfect condition of body and nerves that Governor Hughes has."

His program for today called for speeches at Hudson, Kingston, Poughkeepsie, Newburgh, Yonkers and Brooklyn. The special train carrying the nominee was due at New York at 8:15 tonight.

HODGES AT ABILENE

Urges Election of Wilson, Helvering,
Howe and Lansdon.

Abilene, Kan., Nov. 3.—Following a torchlight parade, Dickinson county Democrats filled the opera house to hear George H. Hodges, former governor. Hodges discussed national issues and urged the re-election of President Wilson as well as support of Guy T. Helvering for congress and J. W. Howe for state senator. In his speech Hodges played Governor Capper, his old political enemy, and asked Dickinson county voters to support W. C. Lansdon for governor. Senator J. W. Howe made a short speech.

25 YEARS AGO IN TOPEKA

From the columns of
THE TOPEKA STATE JOURNAL

November 3, 1901.

As usual the last two or three days before election the air is full of rumors. Monday and today a story has been industriously circulated by the friends of Judge Douthitt and some of the Alliance members to the effect that Judge Johnson, S. J. Bear and George Tamber had hired a room near Coran's foundry and had been on tan for the public. An effort to find the place proved ineffectual.

An active Second ward politician told what he knew about it. "I looked for the place," he said. "If there were any beer to be had I wanted a chance at it but I found that there was no truth whatever in the statement. It is a lie made out of whole cloth."

The Ministerial Union has arranged to have union Thanksgiving service at the First M. E. church, conducted by Bishop Thomas of the Episcopal church; at the Cumberland Presbyterian church, conducted by the Rev. C. M. Sheldon and the Rev. B. H. Hutchins with contact a service at the Kansas Avenue M. E. church.

Today is election day but as to the results no one can tell any better than on Monday. The most systematic fight today was that made against Wilkinson.

Twelve or fifteen thousand Republican tickets were stolen from Republican headquarters last night and it was necessary to reprint them today. George W. Crane did the work and had them ready by noon but a good part of the day there was a general shortage.

The Ninde Chautauque circle met last night in the parlors of the First M. E. church. Twenty-six persons were present.

Mrs. C. D. Startzman led in a table talk on the World's Fair in 1903. Mrs. E. A. Lyon led the class in American history. The Pequot war and the persecution of Quakers were studied. The Rev. J. A. Lipplincott led the class in the "Church and the Clergy."

Mrs. Harry Overholt is slowly recovering from a severe illness at her home in Potwin.

A break in the machinery of an electric car on the Eighth avenue and Potwin line, on Clay street this morning, delayed cars on that line for nearly an hour.

The last meeting of the Republican campaign held at Crawford's opera house last night. A large audience assembled to hear ex-Governor George T. A. Hobson, who is recognized as one of the best campaigners in Kansas. Governor Anthony said he has his purpose to refer to the speeches made in Topeka this fall by Senator Peffer and Congressman Simpson.

He said: "The Topeka speeches were modified to suit the people and did not give them an entirely correct picture of the campaign. It is impossible for a speaker of any party to stand up before the array of figures ground out by these speakers."

Why it reminds me of the New England Yankee's dried herring machine. Some of you have tried to eat herring and know of the difficulty encountered in the bones. Well an inventive Yankee made a machine in which a herring being deposited, you would turn the crank. The meat of the herring would be ground out into your mouth as the bones and the other end of the machine. One day a left handed man got hold of the machine. You can imagine the result. He was ground so full of bones that he never got his clothes off.

"Fifteen minutes" listening to the Alliance speakers and I find myself so full of figures that they are pinching me on the inside to get out."
